## **How to Copy your Data to a New Computer**

### Definitions

Source Computer-The computer that the user is moving the Collectorpro data from.

Target Computer-The computer that the user is moving the Collectorpro data to.

### Prerequisites

A removable disk or other media on which to move the Collectorpro data from the source computer to the target computer.

Collectorpro Software Inc.  
CONFIDENTIAL

Collectorpro Appraiser Edition installed on the target computer.

Step by Step Instructions

On the source computer, copy the entire folder (listed above in the Data Location section) to a removable disk.

Move the removable disk to the target computer.

On the target computer, copy the folder previously copied to the removable disk, from the removable disk to the proper folder (listed above in the Data Location section).

On the target computer, start Collectorpro.

Collectorpro should find the data, perform any software upgrades and Collectorpro will start automatically.
